Botany site update

A fire occurred at the site of the Orora paper facility in Botany, Sydney yesterday near the building of a previously decommissioned paper mill.

Production at the nearby B9 Botany Mill was temporarily suspended to redirect the site's water capacity to assist fire authorities. The fire is now contained and B9 production is expected to return to normal this morning. No personnel were injured. Orora is working with the relevant authorities to identify the cause of the fire and assess the extent of the damage.
